LAND CLASSIFICATION BOARD
PLEASE RETURN TO THE SEC'Y

The Honorable,

The Secretary of Interior.

Sir:

The Reclamation Service reports that the withdrawal made December 29, 1908, under the first form, on recommendation of that Bureau, covering the San Juan River, New Mexico, (Colorado River Storage, New Mexico) was for power purposes.

In accordance with your instructions, I have the honor to recommend that the existing first form withdrawal covering the lands described below be changed to a Temporary Power Site Withdrawal in the following form, and that any lands in the following list not affected by the first form withdrawal be also included in the power withdrawal. This recommendation involves 9,612 acres, 1,531 acres being entered:

TEMPORARY POWER-SITE WITHDRAWAL NO. 59.

San Juan River, New Mexico.

In aid of proposed legislation affecting the disposal of water-power sites on the public domain, all public lands in the following list are temporarily withdrawn, pending examination, from all forms of entry, selection, disposal, settlement,

The Honorable,

The Secretary of the Interior.

Sir:

In accordance with your instructions of April 23, 1909, I have the honor to submit the following recommendation, which involves approximately 20,144 acres, 3,542 acres being entered:

+ TEMPORARY POWER-SITE WITHDRAWAL NO. 83.

Gila River.
New Mexico and Arizona.

In aid of proposed legislation affecting the disposal of water-power sites on the public domain, all public lands in the following list are temporarily withdrawn from all forms of entry, selection, disposal, settlement, or location and all existing claims, filings and entries are temporarily suspended. All valid entries heretofore made may proceed up to and including the submission of final proof, but no purchase money will be received or final certificate of entry issued until further orders.

The Honorable,

The Secretary of the Interior.

Sir:

The following proposed order of classification embraces public lands adjacent to the constructed transmission lines of the Hagan Power and Electric Company, the Paramus Mining Company and the Manilla Valley Electric Company, rights of way for which are held under permit or grant from the Secretary of the Interior. Since these lands are occupied and used for the purpose of power transmission, I recommend the approval of the classification as power site lands (Power Site Classification No. 225, New Mexico No. 1) of the following areas involving approximately 49 acres. The lands listed are all shown to be public lands by search of status made by an employee of the Geological Survey on April 29, 1929.

Respectfully,

W. C. Mendenhall

Acting Director.

I concur:

Commissioner, General Land Office.

Reservoir Site Restoration

No. 13

UNITED STATES

DEPARTMENT OF THE INTERIOR

GEOLOGICAL SURVEY

WASHINGTON

OCT 12 1935

The Honorable,

The Secretary of the Interior.

Sir:

Certain lands were selected by the Director of the Geological Survey July 13, 1889, as the "International Dam and Reservoir Site" on the Rio Grande, New Mexico. They were segregated from disposal by Departmental Order of July 26, 1889. Reports based upon field investigations made at various times since about 1902 indicate that the Elephant Butte Reservoir was selected and constructed in preference to the International reservoir site because of its unquestioned feasibility and because it offered practically complete utilization of the river flow for irrigation of lands below Elephant Butte dam including very valuable agricultural lands which would be submerged by the International reservoir. Upon recommendations by the Bureau of Reclamation, the withdrawal as affecting certain lands has been revoked by the Department from time to time, and in each case upon the basis that the lands are no longer required for reservoir purposes.

In a letter dated September 17, 1935, to the Bureau of Reclamation, the Geological Survey suggested the restoration of the lands remaining withdrawn. In the reply of September 23, 1935, the Commissioner of the Bureau of Reclamation states that "appropriate recommendation for the restoration of such lands has the concurrence of this office".

Accordingly I recommend that the accompanying order of restoration be approved. The records of the Geological Survey indicate that none of the lands are included in other withdrawals made on recommendation of this office.

Respectfully,

Julian D. Sears

Acting Director.

I concur in the foregoing recommendations.

Commissioner, General Land Office.

IDAHO

PARTIAL REVOCATION OF LAND WITHDRAWAL

Revoking in part Public Land Order No. 178 of October 1, 1943, and withdrawing public lands for use of the War Department as a moving target range.

By virtue of the authority vested in the President and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Public Land Order No. 178 of October 1, 1943, withdrawing public lands for the use of the War Department as a moving target range, is hereby revoked so far as it affects the public lands within the following-described areas:

BOISE MERIDIAN

T. 6 S., R. 34 E.,
Sec. 21, SW¼ and S½SE¼;
Sec. 28, N½, SW¼, and W½SE¼;
Sec. 29, E½ and SW¼;
Sec. 31;
Sec. 32, N½, SW¼, and NW¼SE¼;
Sec. 33, N½NW¼ and SW¼NW¼.

The areas described, including both public and non-public lands, aggregate 2,575.88 acres.

The jurisdiction over and use of such lands granted to the War Department by Public Land Order No. 178 shall cease upon the date of the signing of this order. Thereupon, the jurisdiction over and administration of such lands shall be vested in the Department of the Interior and any other Department or agency of the Federal Government according to their respective interests then of record.

This order shall not otherwise become effective to change the status of such lands until 10:00 o'clock a. m. of the sixty-third day from the date on which it is signed, whereupon, the lands shall, subject to valid existing rights, become subject to such application, petition, location, or selection as may be authorized by the public-land laws in accordance with the provisions of 43 CFR 295.8 (Circ. 324, May 22, 1914, 43 L. D. 254), and 43 CFR Part 296, to the extent that these regulations are applicable.

Subject to valid existing rights, the public lands within the following-described areas are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and mineral-leasing laws, and reserved for the use of the War Department as a moving target range:

BOISE MERIDIAN

T. 6 S., R. 34 E.,
Sec. 18, lot 2, SE¼NW¼, and N½SE¼;
Sec. 20, N½NE¼.

The areas described, including both public and non-public lands, aggregate 244.89 acres.

This order shall take precedence over but not modify the order of November 3, 1936, of the Secretary of the Interior, establishing Idaho Grazing District No. 2, so far as such order affects any of the lands withdrawn hereby.

The jurisdiction granted by this order, as to the lands withdrawn hereby, shall cease at the expiration of the six months' period following the termination of the unlimited national emergency declared by Proclamation No. 2487 of May 27, 1941 (55 Stat. 1647). Thereupon, jurisdiction over the lands hereby reserved shall be vested in the Department of the Interior, and any other Department or agency of the Federal Government according to their respective interests then of record. The lands, however, shall remain withdrawn from appropriation as herein provided until otherwise ordered.

MICHAEL W. STRAUS,
Acting Secretary of the Interior.

The Honorable,

The Secretary of the Interior.

Sir:

Investigation of lands included in Water Power Designation No. 1, New Mexico No. 1, Santa Cruz River tributaries, as interpreted by Power Site Interpretation No. 70, approved February 4, 1926, indicates that certain tracts are situated along a stream that has little or no power value. As these tracts are found to be not valuable for the conservation of water power, I recommend the approval of the following order of cancelation (Order of Cancelation No. 13, New Mexico No. 1) affecting Water Power Designation No. 1, involving an area of approximately 454 acres. The records of the Geological Survey indicate that none of the lands are included in other withdrawals made on its recommendation.

This order includes a tract for which application has been made by the Molybdenum Corporation of America. There is some question as to whether Water Power Designation No. 1 affects this tract since the lands surrounding the tract are unsurveyed. A map filed by the Molybdenum Corporation of America indicates that the mining claim is all more than one-half mile from Red River but that one small corner is located in a subdivision part of which is less than one-half mile from that river. This order (Cancelation No.40) is prepared for the purpose of removing any possible restrictions which might attach to the title because of Water Power Designation No. 1.

MEMORANDUM

To. : Director, Geological Survey

From : Chief, Conservation Division

Subject : Cancelation No. 95, affecting Power Site Classification No. 228, New Mexico

Power Site Classification No. 228, approved May 16, 1929, was made to reserve certain public lands in New Mexico for power transmission line purposes. Of these transmission lines, those of the Hagen Power and Electric Company (Santa Fe 054208) and the Parsons Mining Company (Roswell 035692, now Las Cruces 030532) are no longer in existence. The public lands involved can be removed from power site classification, therefore, without calling on any other agency for a report. I recommend approval of the attached order (Order of Cancelation No. 95) which has been prepared to cancel Power Site Classification No. 228 in so far as it affects these public lands.

This action will reduce the outstanding area in power site classifications by about 22 acres.

Sir:

In pursuance of Departmental Order of April 25, 1912, providing for description according to new surveys of lands included in withdrawals, I recommend the approval of the following order (Power Site Interpretation No. 11) which conforms the description of certain lands included in Power Site Reserve No. 740, Rio Grande and Rio Colorado, New Mexico, North Fork Feather River, California, to the official plat.

As neither the Rio Grande nor the Rio Colorado is meandered in this township it is impossible to describe the land lying on the north and west banks by lots. Accordingly, all subdivisions cut by the river have been included in this interpretation, which now lists as part of Power Site Reserve No. 740, certain lands on the south and east banks of the river which are also included in Carson National Forest. These lands, however, were designated for water power in Water Power Designation No. 1, New Mexico No. 1, approved August 7, 1916.

The Honorable,

The Secretary of the Interior.

Sir:

In pursuance of Departmental order of April 25, 1912, providing for description according to new surveys of lands included in withdrawals, I recommend the approval of the following order (Power Site Interpretation No. 16), which conforms the description of certain lands included in Power Site Reserve No. 59, San Juan River, New Mexico, to the official plat. The area heretofore recorded as withdrawn in the township described is 1,915 acres, but in terms of the official survey as construed herein is found to be 1,766 acres.

Respectfully,

Geo. Otis Smith

Director.

e instructions of the Assistant Secretary of August 31, 1912.

In the case of the lands which lie along the Rio Grande opposite the ngre de Cristo Grant, these withdrawals are herein described to embrace the bdivisions lying along the meandered right bank upon which the resurveys re terminated, although in the original survey of these townships the rresponding subdivisions extended east across the Rio Grande to the traverse ne of the grant. The river, however, is recognized as the west boundary the grant rather than the traverse line.

To: Regional Administrator, Albuquerque, New Mexico

From: Director

Subject: Power Site Classification No. 210;
Power Site Reserve No. 446;
Water Power Designation No. 7;
Group 213, Arizona.

Reference is had to the plat of the survey in T. 33 N., R. 16 W., G.& S.R.M., Arizona, accepted June 2, 1947, which has been forwarded from this Bureau.

This survey embraces all lands lying within this township above the full-flow line of Lake Mead on the 1229-foot contour.

According to the records of this Bureau, all lands therein within the Black Canyon Reservoir Site at an altitude of less than 1250 feet above sea-level in so far as title thereto remains in the United States, were embraced in Power Site Classification No. 210 on January 7, 1929.

As conformed to the lines of survey within this township, this withdrawal is now described as follows:

Gila and Salt River Meridian

T. 33 N., R. 16 W.

Our records also show that all lands which when surveyed will lie within 1/4 mile of Colorado River were embraced in Power Site Reserve No. 446 by Executive Order of September 5, 1914, and aalso in Water Power Designation No. 7, Arizona No. 4, by the Secretary on February 9, 1917.

No conformation to the lines of survey in this township are involved since none of the lands withdrawn thereunder by virtue of the location of the Colorado River appear to invade this township.

The records of the district land office should be posted accordingly. This action is in compliance with the instructions of the Assistant Secretary of August 31, 1942.

Subject: Water Power Designation No. 1, New Mexico No. 1

By Order of August 7, 1916 certain lands of the United States in T. 19 N., R. 10 E., N.M.P.M., New Mexico, were reserved under Water Power Designation No. 1, New Mexico No. 1. The surveyed lands in this township at that date were described by legal subdivision but the unsurveyed lands as follows:

> All lands of the United States which when surveyed shall be within legal subdivisions situated in whole or in part within 1/2 mile of Nambe Creek.

The unsurveyed lands at the time of the withdrawal were subsequently surveyed as shown by plat approved March 28, 1917, and in terms of this plat so much of the withdrawal as involves the lands shown thereon is now described as follows:

New Mexico Principal Meridian

T. 19 N., R. 10 E.

Subject: Water Power Designation No. 1, New Mexico No. 1

By order of August 7, 1916, certain lands in T. 18 N., R. 12 E., N.M.P.M., New Mexico, as described by legal subdivisions in terms of the plat of survey approved September 20, 1883, were reserved under Water Power Designation No. 1, New Mexico No. 1.

In 1925 an independent resurvey of this township was made as shown by plat approved February 14, 1928, in which all patented lands were covered by tract surveys and segregated from the public lands.

Because of the amendment of the patent issued for the W½W½SW¼SW¼ sec. 11 of the original survey embraced in Tract 41 of the resurvey to include the W½E½NE¼NE¼SE¼ and E½E½NW¼NE¼SE¼ (part of lot 2) sec. 15 of the resurvey, a supplemental plat was prepared and accepted May 3, 1949, to show a subdivision of lot 2 section 15 as a basis for the description of the lands upon which an amended patent was issued. In terms of the subsisting plats, the withdrawal is now described as follows:

Subject: Water Power Designation No. 1 New Mexico No. 1

Reference is had to our memorandum of September 16, 1949 in which the lands reserved as Water Power Designation No. 1 in T. 18 N., R. 12 E., N.M.P.M., New Mexico, are described by legal subdivisions in terms of the plat of survey of this township approved September 20, 1883, were adjusted to the plat of the independent resurvey of the township approved February 14, 1928 and described in terms of that plat.

It has been noted that so much of this adjustment as describes the $E\frac{1}{2}SE\frac{1}{4}$ sec. 14 should be described as the $E\frac{1}{2}SW\frac{1}{4}$ of that section.

Notations to this effect have been placed on the records of this office and it is requested that the land office records be noted accordingly.

Subject: Water Power Designation No. 1 New Mexico No. 1

By order of August 7, 1916, certain lands in T. 16 N., R. 12 E., N.M.P.M., New Mexico, as described by legal subdivisions in terms of the plat of survey approved September 30, 1882, were reserved under Water Power Designation No. 1 New Mexico No. 1. This plat shows the segregation of the Alexander Valle Grant in sections 16 and 17 and other sections as surveyed in 1876.

In view of a redetermination of the boundaries of this grant in 1913, a partial resurvey was made in 1919 as shown by plat approved February 28, 1921 which shows a re-segregation of the grant, while a supplemental plat of section 5, approved October 24, 1923 shows revised lottings therein.

In terms of the latter plats the withdrawal is now described as follows:

By registered mail to the Land and Survey Office at Phoenix, the original plat, together with the usual sales copies, of the extension survey in T. 3 N., R. 7 E., G.& S.R.M., Arizona, accepted November 1, 1949, is being forwarded for the files of the public survey office and the triplicate plat for the district land office. Instructions as to the official filing of this plat in the district land office will be issued at a later date.

This survey embraces lands in sec. 33 east of the Salt River Indian Reservation and in secs. 34 and 35. Our records show that all land of the United States which, when surveyed, will be included within legal subdivisions situated in whole or in part within half a mile of Salt River, were designated under Water Power Designation No. 8 Arizona No. 5, on February 9, 1917.

In terms of the above plat of survey, so much of this withdrawal as includes lands within secs. 33,34, and 35, outside of the Salt River Indian Reservation, is now described as follows:

Reference is had to our memorandum of January 15 by which the order of August 7, 1916 creating Water Power Designation No. 1 was amended to afford a more complete description of the withdrawal by legal subdivisions in terms of existing surveys in Tps. 28 and 29 N., R. 13 E., and T. 29 N., R. 14 E., N.M.P.M., New Mexico.

An omission has been noted in the amended description as to the south half sec. 21, T. 29 N., R. 13 E. which was withdrawn by the above order of August 7, 1916. Also, the amended description in sec. 36, T. 29 N., R. 14 E. should include the SW¼SW¼ instead of the SW¼SE¼.

It is requested that appropriate notations to this effect be made on the land office records.

Memorandum

To: Regional Administrator, Region V

From: Acting Chief, Division of Cadastral Engineering

Subject: Power Site Reserve No. 59--Group 526 New Mexico

The original plats, together with the usual sales copies of the dependent resurvey of Ts. 29 and 30 N., R. 9 W., N.M.P.M., New Mexico, accepted July 2, 1952, are being forwarded to the office of the Regional Chief, Division of Engineering at Albuquerque, and the triplicate original plats to the Land and Survey Office at Santa Fe by registered mail.

These surveys were made upon the request of the Range Manager, this Bureau, and the Oil and Gas Supervisor, Southwestern Region, Geological Survey, to serve certain administrative needs.

The triplicate original plats will be regarded as officially filed in the land office on the date of receipt thereof. An immediate report of such date will be made to the Director. The original plats will be placed in the survey office files (see Circular 1715, approved December 23, 1948).

According to our records, certain lands in secs. 2 and 19, T. 29 N., R. 9 W., and secs. 25, 34, and 36, T. 30 N., R. 9 W., were included in Power Site Reserve No. 59 by order of November 18, 1909.
